

Plumbers Choice™ Washing Machine Water Leak Protection System

FEATURES

- Shuts off both the hot water and the cold water lines to the washing machine when a water leak is detected by its sensors
- Sensor probes can be expanded to "daisy-chain" multiple sensors around the area
- Valves install directly onto existing hot and cold water supply taps
- Loud continuous alarm
- Power by 9-volt battery or 9-volt wall adapter
- Low power consumption
- Discounts may be available through your insurance company

Full Monitoring
(Monitor not included)

**THE PLUMBERS CHOICE WATER LEAK
PROTECTION SYSTEM WILL SHUT OFF WATER
WHEN ITS SENSORS DETECT A LEAK**
